

GAFFERS CONTROL GC28 upgrade kit

We kept the simplicity
But added a lot more

UPGRADE KIT (available for all GC)

- ▶ The existing hardware is fitted with a new mainboard
- ▶ Faster processor and extra internal memory
- ▶ Optional: upgrade from CRMX to Timo 2

NEW FEATURES

- ▶ 28 Fixture banks with each 4 fader pages (max 512ch) instead of 14 Fixture banks with 2 fader pages
- ▶ 6 recordable scenes
- ▶ scenes can be easily controlled and adjusted in the cue page with individual fade times
- ▶ scenes can be played in a loop
- ▶ max 256 steps in a look up instead of 200 steps
- ▶ Intensity channels also get 256 steps instead of 101 (0-100%)
- ▶ firmware and library updates with USB stick
- ▶ possibility to save shows on a USB stick
